### [How everyone in secondary school can contribute towards careers education](#)

This article has some useful suggestions around integrating careers into various aspects of the school programme, whether you are a form teacher, subject teacher or headteacher.

### [Graduates' labour market outcomes](#)

The impact on graduates' opportunity to find work during the pandemic has been mentioned many times in the last 12 months. This graph from ONS shows the scale of the impact on recent graduates - that's those who graduated in the last five years. It peaked at 12% at the end of quarter 3. In fact there is always a blip during the third quarter, when graduates finish their course and many are looking for work. However this was much more pronounced in 2020.
