

**By the end of
KEY STAGE 5
Uxbridge High School
students will have...**

...Aimed High!

...increased knowledge of careers available at ages 18, 21 and beyond

...visited at least two universities, spoken to students and find out about a wide range of opportunities in higher education both in the UK and abroad

...attended a higher education fair (UCAS convention) where they will have met students and representatives from a range of universities

...enhanced the personal and employability skills valued by employers such as time management, problem solving, perseverance, communication, team working and awareness of others

...been supported through the decision making process regarding higher or further education as well as the alternative routes such as internships, apprenticeships and employment after year 13

...networked with a range of successful professionals from diverse backgrounds

...had the opportunity to take advantage of work experience opportunities

...identified where to find up to date labour market information and applied this to their careers plans

...completed a high quality UCAS application

...had access to the CEIAG via 1:1 and group sessions with the school's impartial careers advisor

...demonstrated their interview skills

...a CV that has been redrafted after input from a visiting professional
