

Do you know what 'fine tuning' means?

When we say we are 'fine tuning' something, we mean that we are tweaking it to make it as perfect as possible.

Origin - the story:

This phrase originates from the world of music.

Many instruments, like guitars, trumpets and pianos, have to be tuned to ensure that they continue to play notes precisely.

Example: She spent the evening fine tuning her presentation, ready for the conference the next day.
