

Read It

rhetoric

Define It

Rhetoric is the art of persuasive speech and writing.

Digging Deeper:

In Ancient Greece, the art of rhetoric was considered a vital part of education and scholars studied different ways to persuade through writing and oration.

Speech writers will often use rhetorical devices in their writing of speeches to create specific effects on their audience. For example rhetorical questions or anaphora (repetition of a word or phrase at the start of successive clauses).

Draw It

Deconstruct It

From the Greek *rhetor*, meaning art of an orator.

Link It

Persuasion, oration, eloquence.

Use It

In this way, the play can be considered as a piece of rhetoric.
